Additional experience

Quote generator „JustDoApp” in Angular

JustDoApp is a web application designed to generate random quotes on special backgrounds. The app is based on keywords from user input.

- Angular
- TypeScript
- Scss

[Project »](#)

Engineering company website

This commercial project is a static „business card” website for a engineering office involved in construction.

- React
- Scss
- Framer Motion

[Project »](#)

Quiz for developers

It is an interactive quiz to test knowledge about programming, which anyone can play.

- JavaScript
- Scss
- HTML

[Project »](#)

All projects were previously designed by me in Figma.

More repositories can be found on my [GitHub profile](#).

About me

I am a front-end developer specializing in web application programming in **Angular 2+**. I have experience in writing static and interactive websites. I can apply **Responsive Web Design** and **Test Driven Development** in my projects. I am currently learning the **Java** ecosystem for future Full-stack competence.

Experience

NOVARIS
inspired by tomorrow

Front-end developer at Novaris, Warsaw
